True Automation Ranked Number 20 in Deloitte's Technology Fast 50 Program for Texas

**Attributes New Market Expansion and Superior Product Features to its
219% Percent Revenue Growth**

DALLAS – October 31, 2008 – True Automation has been named to Deloitte's prestigious Technology Fast 50 Program for Texas, a ranking of the 50 fastest growing technology, media, telecommunications, and life sciences companies in the area by Deloitte LLP, one of the nation's leading professional services organizations. Rankings are based on the percentage revenue growth over five years from 2003–2007.

True Automation's President Osvaldo Morales credits the development of a new market strategy and consistent client satisfaction with the company's 219 percent revenue growth from 2003–2007. “This is our sixth consecutive year to be recognized in the Fast 50 of Dallas/Fort Worth,” Morales explained. “We have continued to grow year after year by exploring market opportunities in new states and by offering superior product features. Aside from our considerable market share in the state of Texas, we now have a growing customer base in the states of Washington and Alaska. Even with this remarkable growth, we have been able to maintain our commitment to providing superior customer support.”

To qualify for the Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 2003 and \$5,000,000 in 2007, be headquartered in North America, and be a company that owns proprietary technology or proprietary intellectual property that contributes to a significant portion of the company's operating revenues; or devotes a significant proportion of revenues to the research and development of technology. Using other companies' technology or intellectual property in a unique way does not qualify.

Deloitte's Technology Fast 50 program for Texas is co-presented by business sponsors who are key to the success of this program. Texas Fast 50 sponsors help produce the overall program, plan the Executive Retreat, present Fast 50 Awards to company officials, conduct CEO business surveys, and present business information and strategy sessions through a series of C-level roundtable seminars. The 2008 Deloitte Texas Fast 50 sponsors are America's 401k, CresaPartners, Gardere Wynne Sewell LLP, NASDAQ OMX, Porsche and TriNet.

“Deloitte's Texas Technology Fast 50 companies have shown the strength, vision and tenacity to succeed in today's very competitive technology environment,” said Skip Moore, managing partner of Technology, Media and Telecommunications, Deloitte & Touche LLP. “We applaud the successes of True Automation and acknowledge it as one of the very few to accomplish such a fast growth rate over the past five years.”

Companies from the regional Technology Fast 50 programs in the United States and Canada are automatically entered in Deloitte's Technology Fast 500 program, which ranks North America's top 500 fastest growing technology, media, telecommunications and life sciences companies. About Deloitte

"Deloitte" is the brand under which tens of thousands of dedicated professionals in independent firms throughout the world collaborate to provide audit, consulting, financial advisory, risk management, and tax services to selected clients. These firms are members of Deloitte Touche Tohmatsu (DTT), a Swiss Verein. Each member firm provides services in a particular geographic area and is subject to the laws and professional regulations of the particular country or countries in which it operates. DTT helps coordinate the activities of the member firms but does not itself provide services to clients. DTT and the member firms are separate and distinct legal entities, which cannot obligate the other entities. DTT and each DTT member firm are only liable for their own acts or omissions, and not those of each other. Each of the member firms operates under the names "Deloitte," "Deloitte & Touche," "Deloitte Touche Tohmatsu," or other related names. Each DTT member firm is structured differently in accordance with national laws, regulations, customary practice, and other factors, and may secure the provision of professional services in their territories through subsidiaries, affiliates and/or other entities.
